

Weekly Update

Cappy Pugliese

11/11 - 11/16

This Week

11/11

- read WNS paper before lab meeting
- evolution homework

11/12

- school outreach planning for 3rd grade classrooms

11/13

- created shortcut to get to the reference genome in the shared cluster lab directory
- was going to try trouble shooting what I was doing last week with this indexed reference genome, but ran out of time
- had to drop off my car to get fixed, but also had to get to an appointment all the way in Farmington without my car... so I spent a lot of time figuring out transportation and whatnot

11/14

- got my car back
- struggled with getting myself to do work
- worked on outlining my preproposal

11/15

- last minute outreach prep

- did 4th grade animal adaptation outreach (it went well!)

11/16

- Wrote up outreach activity directions
- signed and emailed in TA form for the spring
