

# Weekly Update

Cappy Pugliese

9/23 - 9/27

## **This week**

**9/24**

- messed around in Rmarkdown
- watched some more xanadu tutorials

**9/25**

- read a bit of the assigned lab paper
- did a WNS paper search and signed up for email alerts
- messed around a bit more in Rmarkdown
- attempted to look into fastqc file error again
  - looks like both the files I downloaded might be multi-line fastq files, and fastQC is not able to process that file format
  - may be possible to convert the file format using software??
    - \* bioruby??

**9/26**

- tried to read lab paper but was not in a productive reading mode, so worked on homework instead

**9/27**

- finished reading the rest of the lab paper
